Vol. Twenty Winter 2009

## UPDATE YOUR EMAIL!

Please take a moment now to record your email address on the flap of the enclosed envelope and mail it back to us. In an effort to both save money in a precarious economy and "go green" when possible, we are requesting current email addresses to add to our records. Email can create an efficient avenue for communication with our friends and supporters. As always, your information will be protected and used for Campus correspondence only.

## Growing the Dream

Welcoming in the New Year allows us the opportunity to examine ourselves and our lives, forge new paths, and set goals for growth and improvement. The same is true at Wendell Foster's Campus. As we look ahead to 2009, and the great endeavors upon which we embark, we are again reminded of the generosity of our supporters who have created possibilities for the Campus.

Wendell Foster's Campus was also fortunate to see a growth in volunteerism when the majority of organizations nationwide reported a loss. The Outpatient Facility built stronger relationships with local and state Universities, increasing the Campus' presence as a facility for teaching and innovation.

In 2008, the Campus accomplished some significant goals that were made possible by the kindness of our community of donors. Construction began on the one-of-a-kind Sensory Park and Garden, a project that embodies the spirit of the Campus mission to *empower people to realize their dreams*. To date, a passive park has been built on the Campus for individuals with disabilities. In 2009, we hope to continue to raise funds to add the exciting and sensory stimulating amenities to this landscape.

For those of us who are a part of this dream- to promote the dignity and honor of people with disabilities, to help those who experience disabilities to attain their highest potential of personal independence, and to provide a future that is inclusive, full of opportunities, and bright for children with special needs- these achievements validate our efforts. We thank you so much for being a part of this dream. Your continued support through donations, volunteerism, and advocacy keeps this dream alive. Please enjoy this newsletter, which is dedicated to *you*, the supporter, the donor, the volunteer, the parent, and the participant. We've named our 2008 donors in the following pages. Please take the time to review the names of the generous people who have given of themselves to fulfill the dreams of those we serve.

Another exciting addition to the Campus in 2008 was the construction of a new Supports for Community Living (SCL) residence. Building this house provided a *home* for three young men who now live as members of the larger community.

*Thank You!*

*"Empowering People, Realizing Dreams"*
